Provident Insurance Programs Named Top Insurance Workplace by *Insurance Business America*

Leading industry publication *Insurance Business America* has launched its inaugural Top Insurance Workplaces report for 2018, a fascinating snapshot of the US insurance sector – and Provident Insurance Programs (Provident) is featured prominently on the list.

Employees from organizations large and small across the whole of the industry were asked to share what they love and hate about their workplaces – whether it's great benefits, great resources, great management or anything else.

From the hundreds of companies that participated, only 51 hit the high standard needed to secure a spot on the list. Provident was among them.

“It is a great honor and privilege to have been recognized by *Insurance Business America* as being a top insurance workplace. This validates our commitment to our company's culture, and we will remain steadfast in striving for continuous improvement,” said Daren K. D'Ippolito, president of Provident.

“We're thrilled for Provident Insurance Programs and all the other hugely successful organizations who made it into the Top Insurance Workplaces report. It's always a pleasure to recognize those employers who go the extra mile to create a great environment for their workers. We look forward to doing it again – and seeing Provident Insurance Programs on the list again – in 2019!” said Paul Lucas, *Insurance Business America* editor.
